

Biography

Mathew Bradley

Campaign Lead Ranges, Test & Evaluation

Mat Bradley is the Australian Lead for QinetiQ's global Test & Evaluation Campaign – a role that functions within the emerging business portfolio for the development of sovereign test capabilities across maritime, air, land and space domains. Incorporating responsibilities for T&E Ranges, Mat is also currently developing the future capability of the QinetiQ designed and operated Queensland UAS Flight Test Range. Prior to this role, Mat held responsibilities as the Program Director managing the QinetiQ consultancy workforce supporting acquisition and sustainment of the Poseidon, Triton and SkyGuardian aviation systems.

A retired Maritime Warfare Officer and Aviation Warfare Instructor, Mat's 26-year naval career included operational deployments to Bougainville, Solomon Islands, North Arabian Gulf, Iraq, Sumatra, Timor Leste and Border Protection. An airworthiness and ship-air integration specialist who was the commissioning Commander Air in HMAS Adelaide, Mat also served as the Executive Officer HMAS Albatross and Commanding Officer HMAS Penguin.

Mat holds a Master of Arts from UNSW and is currently completing a Master of Maritime Policy through the University of Wollongong. An Executive MBA candidate, Mat has completed certificate studies through Harvard Business School and is a Chartered Manager and Fellow of the Institute of Managers & Leaders. Mat has been a member and article contributor to the Australian Naval Institute since 2006.
